BIG-FIRM CAPABILITIES, SMALL FIRM PERSONALIZED SERVICE

Focusing on audit and insurance since 1973 the firm offers a broad range of traditional services such as accounts and tax compliance as well as more specialist services such as corporate finance, forensic auditing, internal auditing, restructuring, investment management and corporate governance.

Through a partner-led, accessible and customized service, we pride ourselves on listening and delivering focussed and creative solutions.

We have a reputation for working with, rather than for, our clients.

OUR TEAM IS OUR ASSETS

We depend on the quality of our people.

Our success and longevity have been fuelled by our personal engagement and quality and the fact that we enjoy what we do.

Working in a collaborative manner, each of us knows we are backed by a large team of multi-disciplinary experts ready to share their insight and practical advice with our clients.

We develop people for long-term careers with us, at whatever level they join. We are strong believers in continuity of staff.

We appreciate people who value clients, have positive attitudes, believe in working as a team and share their ideas and aspirations with others.

OUR CLIENTS ARE OUR PARTNERS

The majority of our new clients approach us due to referrals from other satisfied clients.

The firm acts for three broad categories: privately held and public companies, not-for profit organizations and public sector organizations.

Our partners and managers take their time to get to know their clients and their clients' businesses, irrespective of size and carry out much of the work in person, often face to face. The team speak your language.

Each partner takes a hands-on role by maintaining regular communication.

Our mission is to provide tailored and structured advice to our clients to enable them to maximise their potential. We are proud to work with quality and integrity to drive both our growth and our clients' growth. We build long-term, trust-based relationships with our clients.

Clients are based not only in Brussels and the South of Belgium but throughout Europe and across the globe.

OUR SECTORS

NOT-FOR-PROFIT

We are proud to do our part to assist entities that are dedicated to community service.

The Not-for-Profit sector is unique, with special regulations and requirements that must be respected. Our team is well versed in these rules and experienced in assisting Not-for-Profit organizations of all types; education, hospital, private foundations, lobbying, home for the elderly and for handicapped individuals, sheltered workshop...

Services provided to these organizations include audits, dashboard reporting, benchmarking analysis, mergers consulting, board training, governance and strategic planning.

CORPORATE BUSINESS

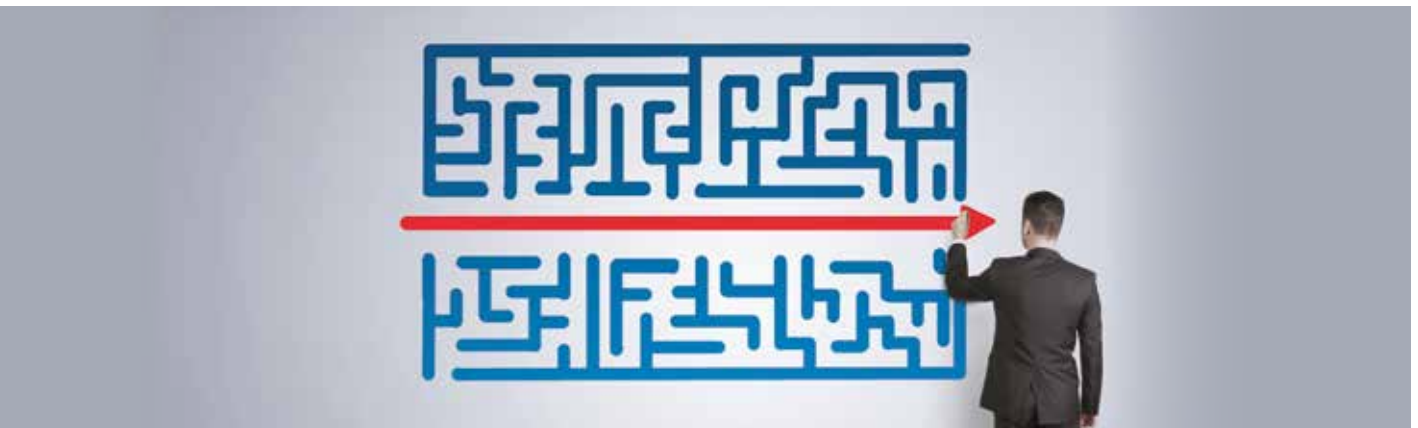

We service start-up companies, long-established private companies, and listed clients on the second market and the main market. We cover almost all business sectors, with a particular reputation in the manufacturing, construction, distribution, food, technology and medical laboratory sectors.

PUBLIC SECTOR

Within the current economic context, public service managers face a formidable challenge: delivering superior service while meeting greater public demand, heightened expectations, and increasingly complex regulations.

We work with many public sector clients to streamline systems and processes, improve effectiveness and performance, meet all reporting and compliance requirements, whilst ensuring best value for money and use of resources.

For example: social housing, hospital, inter-municipality, public companies, autonomous municipal undertakings.
